# INTRODUCTION OF TYVEK® FABRIC

# INTRODUCTION OF TYVEK® FABRIC

**Tyvek®**

**Is a Dupont registered brand**

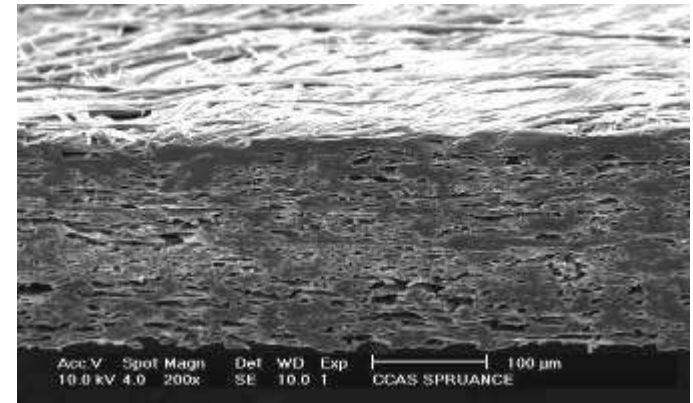

*A strong, durable product composed of high density polyethylene*

Tyvek is DuPont's registered trademark for its family of tough, durable sheet product made of HDPE.

*Tyvek® consists of a random distribution of continuous multi-fiber with a diameter of only a few microns, without adhesives or fillers, using flash technology, from high-density polyethylene hot melt processing into continuous filament hot pressed bonded non-woven fabric, at the same time has a hard structure like paper and a soft structure like cloth. This unique process allows Tyvek® to take print durability, quality, strength*

Top View (200x)

Cross View (200x)

# KEY FEATURES OF TYVEK®

Reflects ultraviolet light. Aging resistance

Extreme color anchorage gives high abrasion resistance which guarantees long readability

Water proof and breathable

printability

Printable with current printing technique

folding resistance

Resists continuous folding and flexing

Eco-Products

Made from 100% HDPE, could be recycled

Incredible tear resistance and strength

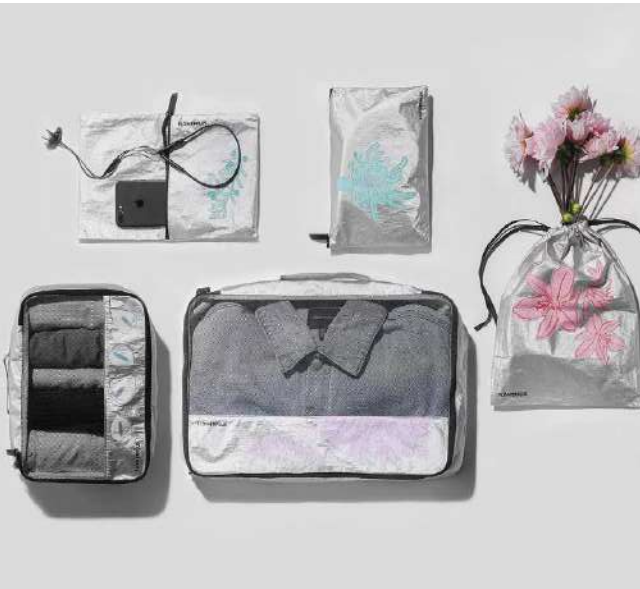

-73 ° C always soft texture

Unaffected over a wide range of temperatures

# APPLICATIONS

Protection, security and safety application of industries, including protective apparel, construction, envelopes, medical and industrial packaging, and graphics, anti-mite.
